**Thank You, Thank You, Thank You!**

---

Despite the weather, the 1st Annual Greater Whiteland Community Day was a huge success with over 600 community members in attendance! A huge “thank you” goes out to all that helped put together such an awesome event, and those of you that attended as well. We can’t wait until a bigger and better event for next year!

## Heating Season Fire Prevention

With heating season upon us, here are some tips given by the National Fire Protection Association:

- Keep anything that can burn at least three feet away from heating equipment, like the furnace, fireplace, wood stove, or portable space heater.
- Have a three-foot “kid-free zone” around open fires and space heaters.
- Never use your oven to heat your home.
- Have a qualified professional install stationary space heating equipment, water heaters or central heating equipment according to the local codes and manufacturer’s instructions.
- Have heating equipment and chimneys cleaned and inspected every year by a qualified professional.
- Remember to turn portable heaters off when leaving the room or going to bed.
- Always use the right kind of fuel, specified by the manufacturer, for fuel burning space heaters.
- Make sure the fireplace has a sturdy screen to stop sparks from flying into the room. Ashes should be cool before putting them in a metal container. Keep the container a safe distance away from your home.

## Kaden, Keelan, Kelton Update

Halloween is the favorite time of year for the Beeson boys. They love to decorate, play spooky pranks, watch Halloween movies, and eat candy! This year they will be helping pass out candy at Beeson Mechanical Service for the first time, and they are super excited! Amongst all the Halloween activities, there will still be time for Kaden to go to school and do his crafts, Keelan to "drive" his truck in the yard, and Kelton to run everywhere and get into everything. They are all very busy, as kids should be!
