Quarter 2, 2012
(April-June)

BEESON MECHANICAL SERVICE, INC.™

“We Charge The Price We’d Charge Our Moms!”™

The *BUZZ* from *BEE*son

Recipe: “Strawberry Arugula Salad”

- 2 cups torn fresh arugula or baby spinach
- 3/4 cup quartered fresh strawberries
- 1/4 cup slivered almonds
- 1/4 cup crumbled Gorgonzola cheese
- 2 tablespoons chopped red onion
- 2 tablespoons olive oil

- 1 tablespoon thawed orange juice concentrate
- 1 tablespoon balsamic vinegar
- 1-1/2 teaspoons grated orange peel
- 1/8 teaspoon ground ginger

In a salad bowl, combine the first five ingredients. In a small bowl, whisk the oil, orange juice concentrate, vinegar, orange peel and ginger. Pour over salad; toss gently to coat. Yield: 2 servings.

We Install & Service Water Heaters!

Quite often we get phone calls about a water heater that isn’t working properly. Unfortunately, the average life for a water heater is just 7-10 years (depending on water conditions, maintenance, and usage). Knowing this, we keep water heaters in stock to help better serve our customers’ needs. We carry the brand Bradford White in the most common sizes of residential water heaters (gas and electric, 40 and 50 gallons). We also have all sizes available within a 12 hour period for unusual circumstances. They come with a standard 6 year warranty and extended warranties are available. If you are reading this and are worried that you’ve had your water heater for 6 years and it’s sure to fail next year, don’t fret. We can install them starting at \$425, which is what it typically costs for only the product at your local hardware store. As with any service we offer, 24 hour emergency service is always available. For more information on water heater maintenance, check out the “Question and Answer” section on the back of this page. Keep in mind this is all general information and every water heater is a little different. If you have questions or concerns, please contact us to further discuss.

Did You Know:

We Service & Install Water Heaters?

Our commitment at Beeson Mechanical Service is to provide you the best service at competitive rates. Our slogan is "We Charge The Price We'd Charge Our Moms". We try our best and if there are ever problems, we take care of them to the best of our abilities! Please keep this in mind when you have service you need completed or if you're able to refer us to friends or family!

Question and Answer

How often should I maintain my water heater?

Like cars (and air conditioners), water heaters need maintenance. This should be done annually and it doesn't matter the time of year. For our service contract customers (that get their furnace and air conditioner serviced each year), we recommend you add maintenance for your water heater. This way it all gets taken care of, takes less of your time (we don't have to make a separate trip), and will save you some money (there is discount for adding it onto your other maintenance). For your water heater, we will do a thorough cleaning, flush the tank, clean burner assembly and pilot, change the thermocoupling if necessary, and check and adjust temperature.

Air Conditioner Maintenance

The summer is sneaking up on us and that means one thing: heat! That also means your air conditioner (or heat pump) will be working much harder. Like changing oil in your car, air conditioners need maintenance. We strive to make our customers aware of this and recommend a "clean and check" annually. Call today for more info!

Kaden & Keelan Update

As you may notice, this section is no longer just a "Kaden Update". Although he's certainly a big part of our lives, we've also added another little boy, Keelan Joseph. He was born March 20th. He was 9 lbs 4

oz, 21.5" long. Both Kaden and Keelan are doing well. Kaden is a very excited big brother and talks about how much he loves his baby brother.

OUR COMMITMENT!

- Dehumidifiers
 - Commercial
 - Residential
- Indoor Air Quality
- Refrigeration
- Network and Communication Installation

Is there anything I can do to protect my house if lightning strikes or if there is a power spike?

Simply put, yes. A whole house surge protector can be installed to protect power, cable, and communication (internet, phone, etc.). This is a one time installation of the surge protector on your electric panel and will protect you from future problems. There is no further cost to you after the initial install (no maintenance).

*If you have questions you'd like answered, please call or email us for next time!

Benefits with Beeson™

- Backed by over 60 years combined experience
- 24 hour emergency service
- Will travel anywhere in central Indiana
- Local, family-owned business
- 4x4 emergency response vehicles (for our rural and snowed-in customers)
